

Cánie Brooks

I am running for the Bengal Breed Committee. I am proud to have been a member for the past nine years and to have helped assemble a great working Breed Seminars that can be shared with fellow breeders and Judges. We continue to update this Breed Seminar to include changes such as Longhair Bengals and pictures of current bengals. Also during this time we have queried the Breed Section as to their opinion on the current standard and have found that no changes were required. I have also presented that same seminar to Judges to facilitate understanding of our breed standard.

I am committed to the Bengal Breed and their health and beauty. For 10 years I coordinated 3 HCM clinics in my area a year to assist breeders evaluate their cats. I currently coordinate TICA's Mentoring program and am a member of the TICA Rules committee. I am also the treasurer of the TICA Southwest Region. In addition, I have been a Bengal breeder and exhibitor for 17 years. Eight years ago I was accepted as a TICA Judge and have been having a great time judging not only Bengals, but many other breeds as well.

The purpose of the Breed Committee is to review the breed standards and modify as necessary and to educate others on that standard. I believe we have successfully done that and I would like to continue to serve the breed in this capacity for the next three years as well.

Thank you for your confidence and vote.
