

Frances Volkman
TICA Ocicat Breed Committee

I would like to take this opportunity to introduce myself to everyone. I am the owner of Calumet Cats and have been a breeder of Ocicats since 1989. I was

honored to be asked to join the Breed Committee three years ago.

As a breeder my commitment/focus has always been on the health, temperament and confirmation of this special breed. I am willing to reach out to anyone that is interested in breeding this stunning feline to discuss what their goals are.

I have always believed that you let your cats do your talking for you in the show ring. To that end I have bred cats that have achieved LA, SGC, BW titles over the years. Most recently the current Champion BW is

the result of my years of dedication to the Ocicat.

I have been working alongside my current committee members to present an updated breed seminar to assist judges and breeders alike. I also speak on a regular basis with TICA judges about breeding challenges we all face with our respective breeds.

I respectfully ask for your vote to represent you for the next term on the Ocicat Breed Committee.
