

Dear Fellow Ragdoll Breeders,

Being the Member of the Ragdoll Breed Committee was such an honor, so first and foremost I would like to tell you how grateful I am that I had the opportunity to serve as a member of our breed committee.

I am breeding ragdolls since 2011, and I am dedicated to breeding and showing my cats, and I am also a TICA judge trainee, but here I would like to write not about myself, but about our breed. Every election it is more and more important to choose committee members who are committed to save our precious breed.

As a member of the TICA Ragdoll Breed Committee, I'd do my best to keep our breed basically what it is: ***a blue eyed pointed cat!*** I think it is very important to uphold the breed standard and keep our Ragdolls blue eyed pointed cats.

For me it is also very important to ***to keep the look of our breed.*** We all see more and more ragdolls resembling to British Longhair, getting shorter and broader muzzles, smaller and smaller ears, round eyes, short cobby body. But it is very interesting we don't often meet them in the show hall – or at least more moderate ones – but we are meeting them in the social media every single day, and they have a huge fan club. Our breed committee did the first very important step with changing the breed standard.

**I believe our committee must be democratic, ready to compromise for the greater good and not simply be ruled by anyone.**

You can all contact me via email ([jjucus@gmail.com](mailto:jjucus@gmail.com)), Facebook and Instagram (mirumkitty). I would love to talk to you, and answer your questions if you would like to get to know me better.

Thank you for your time and consideration!

Kind regards,

Judit Jozan
